

Work Party, Spring 2021, April-June

Jobs For Everyone!

The harsh desert winter takes a toll on our infrastructure every year. Feeling it's still too soon to gather in our usual large-group Spring Work Party format, we have provided a list of tasks and ask each of you to:

- review the [task list](#) and make note of the task number(s) upon which you want to work,
- review the [Operations Calendar](#) to see when others may have signed up for a Spring Work Party day. Daily entries give the number of claimed time slots (i.e., "8am Spring Work Party (1 of 5 spots filled)") with information on who has signed up for that day in the details.
- schedule your time using the [Spring Work Party sign-up form](#), referencing the task number(s) you are volunteering to complete in conjunction with your name (e.g., "D. Volkmann Task #13", "C. Donovan Task #23"). Where the form shows, "**Please share anything that will help prepare for our meeting**", list any comments you might have (e.g., "Will bring my own tools", "Will find my own helper", etc.).
- notify [Cindy Donovan](#) of the task you selected, and
- notify [Cindy Donovan](#) again when you finish the task.

The task list will be updated as tasks have been selected, when completed and when new tasks are identified.
